

## 【Parameter Description】

## Three-in-one Smoke Heat Detector Tester And Disassembly Portfolio Tool

## Parts List

Contains: Fuming liquid / Charger / Injector / Screwdriver / Flashlight holder / Wheel chucks / Column grippers / Gaskets / Flashlight

| TECHNICAL PARAMETERS |  |                    |   |
|----------------------|--|--------------------|---|
| DETECTION TYPE       | Smoke Detector ; Heat Detector                   |                    |   |
| SMOKE TEST           | 450-800 Detectors<br>(With Battery Full Charged) | HEAT TEST          | >400 Detectors<br>(With Battery Full Charged) |
| SMOKE SOURCE         | Environmentally Friendly<br>Smoke Liquid         | OUTPUT TEMPERATURE | >80°C   |
| BATTERY PARAMETERS   | DC7.4V 2200mAh                                   | CHARGER OUTPUT     | DC8.4V 1000mAh                                |

| CONFIGURATION PARAMETER     |  |                      |  |
|-----------------------------|--|----------------------|--|
| STANDARD LENGTH             | Disassembly tool - 3.4 m<br>Tester - 3.6 m | WHOLE SET WEIGHT     | 4.5kg  |
| TESTER MATERIAL             | Aluminum                                   | TIP SIZE             | Disassembly tool - 19 cm<br>Tester - 41.5 cm |
| MATERIAL OF CONNECTING POLE | Aluminum                                   | CONNECTING POLE SIZE | 59cm   |
| OUTER BOX MATERIAL          | Aluminum                                   | CARTON SIZE          | 64.5*25*15cm                                 |

## 【Instructions】

## Three-in-one Smoke Heat Detector Tester And Disassembly Portfolio Tool

## PRODUCT FEATURES

1. ABS-T2 is a combination product set, the product combination model is ABS-YW13 and ABS-CZ08.
2. This product is used for the detection, disassembly and installation of point-type smoke heat detectors. The same connection method can be quickly switched.
3. The following is a simplified operation method. For details, please refer to ABS-YW13 (page 13) and ABS-CZ08 (page 29).
